

UPS OnLine® Compatible

OVERVIEW

Kewill is a certified UPS OnLine® Compatible vendor. Kewill shipping solutions enable businesses to take advantage of UPS information-based services that can only be provided through UPS OnLine® electronic connectivity.

FEATURES & BENEFITS

- Weighs and calculates rates for UPS services.
- Generates UPS barcoded package labels.
- Electronically transmits package information to UPS network.
- Provides UPS package tracking capabilities.
- Maintains an archive of UPS activity.
- Eliminates paper manifesting with the electronic uploading of shipping information.
- Reduces training with one system to process packages for multiple carriers.
- Reduces manual data entry by sharing and reusing package information among shippers, consignees, and consignee customers.
- Improves customer service with realtime access to package tracking information.
- Enhances billing options with availability of 2nd party, 3rd party, and consignee billing.
- Simplifies tracking by using shipper's own reference number to track packages.
- Processes shipments via UPS and other carriers on a single workstation.
- Kewill's powerful integration tools enable businesses to share valuable shipping information and package status with customer service, accounting, and other business applications.
